EEP 24 Transurethral Endoscopic Enucleation of the Prostate

3rd Endourology Symposium in Salzburg
Sept. 02-03, 2024

PREFACE

Dear colleagues,

the surgical treatment of a benign prostate enlargement has changed from an open to an endoscopic procedure within the last decades. Even very large prostate glands are suitable for endoscopic treatment due to new techniques and a better armamentarium. Modification to techniques and instruments leads to a reduction of operative time, improved safeness and better functional results for the patient.

Due to the changes in endoscopic surgery on BPH we can now choose between different types of lasers with different features and a different safety profile. Furthermore, with the transurethral bipolar enucleation we have a completely different technique for the treatment of the BPH.

The EEP (Endoscopic enucleation of the Prostate) symposium will show the surgical steps of the enucleation of the prostate with the different available systems. Differences between laser enucleation (Holmium, Thulium) and bipolar enucleation are demonstrated in live and semi-live surgeries.

The symposium, taking place at the Paracelsus Medical University in Salzburg, will be held by the Department of Urology in collaboration with the Austrian Board of Endourology.

We welcome you from Monday 2nd to Tuesday 3rd September 2024. See the state of the art in EEP and benefit from discussions with the experts.

Yours sincerely,

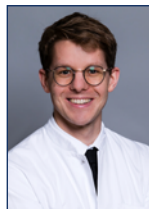

Prim. Univ. Prof. Dr. Lukas Lusuardi

Head of Department

Dr. Michael Abenhardt

Physician

EEP 24

Transurethral Endoscopic
Enucleation of the Prostate

3rd Endourology Symposium in Salzburg
Sept. 02-03, 2024

PROGRAM

Monday | September 02

(all lectures incl. 10 min discussion)

12:30-13:00 **Registration and Welcome**

13:00-13:30 **The advantage and disadvantage of different laser technologies**

D. Enikeev | Petah Tikva, ISR

13:30-14:00 **Instrumentation in EEP: Does size (of resectoscope) really matter?**

F. Figueiredo | Caxias do Sul/RS, BRA

14:00-14:30 **Imaging before EEP**

M. Sofer | Tel-Aviv, ISR

14:30-16:00 **Semi-live Surgery** | 3 different EEP-technologies: "May the force be with you"

14:30-15:00 **MiIEP**

F. Figueiredo | Caxias do Sul/RS, BRA

Semi-Live

15:00-15:30 **ThuFLEP**

D. Enikeev | Petah Tikva, ISR

Semi-Live

15:30-16:00 **BipolEP** with Lamidey/AFS

S. Pavel | Gap, FRA

Semi-Live

16:00-16:30 **COFFEE BREAK**

16:30-17:00 **Safety and Efficacy of EEP in Elderly Patients and with Antikoagulants**

T. Aho | Cambridge, UK

17:00-17:30 **Complications and urinary incontinence following EEP**

F. G. Sancha | Madrid, ESP

17:30-18:00 **Nightmare Session**

18:15-18:30 Leaving for dinner by bus

19:00 **DINNER**

EEP 24 Transurethral Endoscopic Enucleation of the Prostate

3rd Endourology Symposium in Salzburg
Sept. 02-03, 2024

Tuesday | September 03

(all lectures incl. 10 min discussion)

08:00-08:30 **COFFEE WELCOME**

08:30-14:30 **Live Surgery** | Six "different" enucleations

TABLE AND COMMENTATION: D. ENIKEEV, M. SOFER, T. HERRMANN, T. AHO

08:30-10:00 **Operating Room 1: HoLEP** with Lumenis, Boston Scientific
K. Lehrich | Berlin, GER

Live

08:30-10:00 **Operating Room 2: MiLEP** with Multipulse, Jenasurgical
M. Kanne | Berlin, GER

Live

10:00-10:30 **The magic about safe and efficient Morcellation**
F. Figueiredo | Caxias do Sul/RS, BRA

10:30-12:00 **Operating Room 1: BipoleP** with KARL STORZ
L. Lusuadi | Salzburg, AUT

Live

10:30-12:00 **Operating Room 2: ThuFLEP** with KARL STORZ
T. Herrmann | Thurgau, CH

Live

12:00-12:30 **Do we know enough about sphincteric preservation?**
M. Sofer | Tel-Aviv, ISR

12:30-13:00 **LUNCH BREAK & INDUSTRY EXHIBITION**

13:00-14:30 **Operating Room 1: MiLEP** with Quanta/RZ Medizintechnik
F. Figueiredo | Caxias do Sul/RS, BRA

Live

13:00-14:30 **Operating Room 2: ThuFLEP** with Soltive, Olympus
D. Enikeev | Petah Tikva, ISR

Live

14:30-15:00 **Conclusion & Farewell**

Ab 15:00 **Arbeitskreis Endourologie der ÖGU: EEP Kurs, Anatomie**
