# EEP 23

Transurethral Endoscopic  
Enucleation of the Prostate

2<sup>nd</sup> Endourology Symposium in Salzburg  
Sept. 04-05, 2023

## PREFACE

**Dear colleagues,**

the surgical treatment of a benign prostate enlargement has changed from an open to an endoscopic procedure within the last decades. Even very large prostate glands are suitable for endoscopic treatment due to new techniques and a better armamentarium. Modification to techniques and instruments leads to a reduction of operative time, improved safeness and better functional results for the patient.

Due to the changes in endoscopic surgery on BPH we can now choose between different types of lasers with different features and a different safety profile. Furthermore, with the transurethral bipolar enucleation we have a completely different technique for the treatment of the BPH.

The EEP (Endoscopic enucleation of the Prostate) symposium will show the surgical steps of the enucleation of the prostate with the different available systems. Differences between laser enucleation (Holmium, Thulium) and bipolar enucleation are demonstrated in live and semi-live surgeries.

The symposium, taking place at the Paracelsus Medical University in Salzburg, will be held by the Department of Urology in collaboration with the Austrian Board of Endourology.

We welcome you from Monday 4<sup>th</sup> to Tuesday 5<sup>th</sup> September 2023. See the state of the art in EEP and benefit from discussions with the experts.

Yours sincerely,

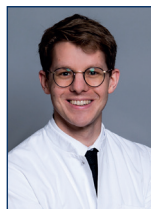

**Prim. Univ. Prof. Dr. Lukas Lusuardi**

Head of Department

**Dr. Michael Abenhardt**

Physician

Transurethral Endoscopic  
Enucleation of the Prostate

2<sup>nd</sup> Endourology Symposium in Salzburg  
Sept. 04-05, 2023

## PROGRAM

### Monday | September 04

(all lectures incl. 10 min discussion)

12:30-13:00 **Registration and Welcome**

13:00-13:30 **Physical basics: May the force be with you!**

**A. Meneghini** | Padua, ITA

13:30-14:00 **Prostate Anatomy: The magic of the perfect surgical plane: en-bloc vs. two-lobe vs. three-lobe**

**T. Aho** | Cambridge, UK

14:00-15:30 **Semi-live Surgery** | 3 videos introducing the Big Players

**MODERATION: A. Meneghini**

14:00-14:30 **ThulEP**

**D. Enikeev** | Petah Tikva, ISR

Semi-Live

14:30-15:00 **BipolEP**

**T. Herrmann** | Thurgau, CH

Semi-Live

15:00-15:30 **HolEP**

**T. Aho** | Cambridge, UK

Semi-Live

15:30-16:00 **COFFEE BREAK**

16:00-16:30 **Is the sky the limit: Is every prostate eligible for an EEP?**

**D. Enikeev** | Petah Tikva, ISR

16:30-17:00 **Complications and troubleshooting during Laser-EEP**

**C. Scoffone** | Torino, ITA

17:00-17:30 **Complications and troubleshooting during BipolEP**

**T. Herrmann** | Thurgau, CH

17:30-18:00 **Nightmare Session**

18:15-18:30 Leaving for dinner by bus

19:00 **DINNER**

# EEP 23

Transurethral Endoscopic  
Enucleation of the Prostate

2<sup>nd</sup> Endourology Symposium in Salzburg  
Sept. 04-05, 2023

## Tuesday | September 05

(all lectures incl. 10 min discussion)

08:00–08:30 **COFFEE WELCOME**

08:30–09:00 **Choose your Laser-Weapon: TFL vs. HoLEP**

**D. Enikeev** | Petah Tikva, ISR

09:00–14:00 **Live Surgery** | three consecutive enucleations

**MODERATION: T. Herrmann**

09:00–10:00 **Operating Room: TFL**

**C. Scoffone** | Torino, ITA

Live

10:00–10:30 **The learning curve of EEP**

**B. Gentile** | Roma, ITA

10:30–11:00 **Ejaculation-preserving techniques: TUR-P & EEP vs. MIST-Techniques**

**T. Herrmann** | Thurgau, CH

11:00–12:00 **Operating Room: HoLEP**

**T. Bothmann** | Berlin, GER

Live

12:00–13:00 **LUNCH BREAK & INDUSTRY EXHIBITION**

13:00–14:00 **Operating Room: BipoleP**

**L. Lusuardi** | Salzburg, AUT

Live

14:00–14:30 **Salvage EEP: When all else fails, anatomical EEP often saves the day.**

**T. Aho** | Cambridge, UK

14:30 **Conclusion & Farewell**

15:00 **Arbeitskreis ÖGU: Kurs Anatomie**

**L. Lusuardi & M. Drerup**
