

Adrenaline & Repair

Complication Management in Neurosurgery

International Course and Conference | June 23–25, 2022
Klagenfurt, Austria

Under the auspices of the EANS

- 3 days covering nerve, vascular, cerebral, skullbase, and spine complications. Experts deliver their knowledge, point out details, and ways to prevent and master complications (emergent vascular repair, cerebral lesions, skullbase, spinal complications, iatrogenic nerve lesions and repair ...)
- Free papers and “my worst case” presentations and discussion
- Hands-on part with vascular and nerve suture, screw placement and micro-instrument handling
- Optional adrenaline related activities in beautiful carinthia (afternoon challenges by lake, mountain and air; up in the air & down in the lake, all out, the 1 hr fight club – an intro to BJJ, paragliding, gorge traverse ...)
- Renowned international experts
- Things you can learn from world class athletes and performance psychology to master complications, performance under acute stress, and how to prepare for difficult cases
